PROFESSIONAL PROFILE

Full Stack Developer with experience in web and mobile applications, covering **frontend**, **backend**, **databases**, and **cloud deployment**. Focused on writing clean, maintainable, and scalable code. I leverage AI tools to optimize workflows and solve complex technical challenges.

WORK EXPERIENCE

Full Stack Developer

August – December 2025

Ingeniería en Telecomunicaciones e Informática S.A (ITISA) – Guadalajara, Jalisco

- Developed and integrated two web applications to monitor supplier alarms, improving operational efficiency and reducing maintenance response times.
- Refactored and optimized 70% of an unstructured codebase with mixed logic from Python, HTML, CSS, and JavaScript, implementing separation of responsibilities and best development practices.
- Redesigned user interfaces applying UX/UI principles, increasing usability and end customer satisfaction.
- I implemented a role-based and permissions-based authentication system, strengthening the system's security and reliability.
- I developed an interactive dashboard with key metrics and KPIs, facilitating administration and improving decision-making.

PROJECTS

RITSA – Corporate Website

January – February 2026

Muebles RITSA – Ocotlán, Jalisco

Developed the corporate website from scratch, aligned with the company's rebranding and new visual identity guidelines, featuring an updated catalog for the **AFAMO Furniture Expo 2026**. Built with **Next.js** (SSR + App Router) for SEO and performance, **TailwindCSS** for responsive design, and deployed on **Vercel** — delivered on a tight deadline with the support of AI tools.
